Professional Experience

DevOps Lead, Bangalore Strategic Solutions
May 2025 - Present

- Created S3 buckets and EC2 instances using AWS CLI, terraform, and AWS console.
- Explored core IAM concepts including users, user groups, and policies.
- Completed the creation of VPC including subnets, route tables, and internet gateway using terraform.
- Lead a team of 5, including myself for the Talent on Cloud project (ongoing).
- Finished assignments such as running a flask app, creating replication rule for S3 buckets in different regions and more.

Business Analyst Internship, Victoria Solutions
Feb 2025 - Mar 2025

- Gathered and documented requirements for four projects, created wireframes and prototypes and performed risk assessments for market entry strategies.

- Awarded Certificate of Excellence for outstanding performance, complemented by a Letter of Recommendation acknowledging my contributions.

Business Operations Assistant, Family-Owned Fertilizer Business
Mar 2021- Apr 2025
- Analyzed sales data to identify trends and top-performing products, providing actionable insights to enhance sales strategies.
- Facilitated internal meetings to address operational challenges and implement data-driven solutions.

Upskilling & Projects
- Designed a database project simulating key business metrics and operations analytics in MS SQL Server.
- Built and maintained a personal portfolio website to demonstrate analytical and front-end skills.
- Collaborated on mini-projects to simulate real-world BA responsibilities, including documentation, data modeling, and dashboard creation.
- Created sales performance dashboard and job tracker in Excel.
- Created KPI tracker in Google Sheets and ETL data processing in SQL.
